## EXPERIENCE & TRAINING

### Zain KSA, Remote/Onsite — Backend Team Lead

FEBRUARY 2024 - PRESENT

- Defining and overseeing the overall architecture of complex backend systems, ensuring scalability, performance, and maintainability.
- Conducting thorough code reviews to maintain code quality and mentoring team members to improve their skills.
- Assigning tasks to team members, prioritizing work, and ensuring efficient resource allocation.
- Fostering collaboration between team members and other departments to ensure smooth project execution.
- Ensuring timely delivery of high-quality backend solutions and overseeing deployment processes.
- Analyzing complex problems, identifying root causes, and developing effective solutions.
- Communicating effectively with team members, stakeholders, and clients through oral and written messages.
- Adapting to improved requirements and technologies, and embracing new challenges.

### FOO__, Beirut, Lebanon — Senior Backend Developer

APRIL 2021 - FEBRUARY 2024

- Technical coordination and communication with all departments involved in the project: Web, Mobile, Designers, QA, and PM.
- Created architecture solutions using various technologies.
- Payment gateway integrations.
- Integration with Telecom BSS Solutions.
- Developed and maintained backend solutions that support hundreds of thousands of daily users.
- Translated business requirements into technical requirements.
- Server-side handling for complex solution architecture.

### SE Factory, Beirut, Lebanon — Cycle #11 Graduate

SEPTEMBER 2020 - JANUARY 2021

Intensive full-stack web development program covering cloud architecture, frontend and backend development, source control, web application security, and soft skills, over 14 weeks of lectures, workshops, and projects.
